## About the AACCP:

---

- Founded in 1984
- Only organization representing psychiatrists working in a variety of publicly financed and community settings
- Advocates for public health and quality care for distressed or underserved populations.
- Recognized for leadership and as a voice for integrity in promoting effective and ethical clinical practices.
- Promotes interdisciplinary and collaborative approaches toward innovative solutions to complex behavioral health issues.
- Works in partnership with consumers, family members, and advocacy groups to promote culturally diverse, individually centered care and recovery for everyone in the community.

*The Mission of AACCP is to inspire, empower, and equip Community Psychiatrists to promote and provide quality care and to integrate practice with policies that improve the well being of individuals and communities.*

To accomplish this mission the AACCP interacts with a variety of service settings and populations:

- Addiction Services
- Mental Health Services
- Child, Adolescent and Family Services
- Primary Health Care Settings
- Crisis and Emergency Services
- Public Hospital Services
- Trauma and Disaster Response Services
- Correctional Settings
- Nontraditional Community Based Health Services Settings

  6. Inclusive Committee Activities

Check the AACCP Website for these and more!

## Who Should Join?

---

The AACCP is an organization for psychiatrists who are committed to serving individuals and communities that are distressed, disenfranchised or underserved. While we are identified in part by the populations we serve, where we provide those services, and the types of care we are involved with, we are defined by our approach to services and our perception of our role. We recognize the primacy of relationships in helping clients people toward change. These relationships are partnerships for creating lives that are meaningful, autonomous, interpersonally satisfying and full of hope. Community Psychiatrists are visionaries who are committed to quality care. We recognize our capacity and responsibility to provide leadership on many levels within the systems in which we work. Whether this is in direct care, team building and direction, organizational policy and process, professional practice, or public policy and advocacy, this leadership has the goal of facilitating change.

The AACCP is a home and a family for psychiatrists who embrace these ideals and values and for others who support them. If this describes you, join with us!
