Cleveland, Ohio

Sponsored by Case Western Reserve University School of Medicine,  
Department of Psychiatry. Presented in cooperation with the  
Ohio Department of Mental Health.

The All-Ohio Institute is the creation of the Public Psychiatry Program at University Hospitals Case Medical Center and the Case Western Reserve University School of Medicine. Designed as a multidisciplinary celebration of community mental health services, All-Ohio has attracted more than 500 psychiatrists, social workers, nurses, and other mental health professionals, as well as consumers and family members to each conference since 1995.

This year's conference, presented in collaboration with the Winter Meeting of the American Association of Community Psychiatrists, focuses on the integration of mental health care with a variety of disciplines to enhance care to consumers. Special attention will be given to integration of mental health and physical healthcare, trauma-informed care and disaster mental health.

The Institute also features Workshops, Showcase Presentations and a Poster Session highlighting specific skills-training while featuring the best of new programs, curricula and clinical practices from around the state.
